

Woodhouse[®]

THE TIMBER FRAME COMPANY[™]

**OUR TOP 5
OUTDOOR STRUCTURE
PRE-DESIGNED
FLOOR PLANS**

Dreaming of summer breezes and heart-warming activities like pool-side barbecues? Woodhouse offers a variety of timeless pergola, pavilion, and gazebo designs to help create an enchanting outdoor space where you can host all sorts of activities.

These designs can be adorned with features like hot tubs, stages, and outdoor kitchens, to create the perfect garden retreat. They can also feature weather-tight areas to house equipment, like pool machinery or audio/video systems. It's an easy DIY project that will transform your backyard into a resort-like sanctuary, or we can coordinate with a contractor in your area to have the structure installed by a professional.

As you enjoy this selection, remember that any Woodhouse pre-designed floor plan can be modified to meet your exact vision, so don't worry if there are details you would like to change: integrating your desires is a key part of our beloved designed process. For example, if you would like to build one of these structures as a porch, or extension, then our design team will be happy to help match the style of your existing home. With the help of our experienced in-house design team, there is also the option to create something completely new and custom if you have a singular vision in mind.

Our unique approach to helping you realize your dream begins with the simple principle of listening. Since 1979, our team has actively listened to thousands of ideas, thoughts and inspirations, and turned them into beautiful homes that truly are as unique as their owner's dreams. We have been proud partners in bringing almost 1,000 dreams to life. Our years of experience and constant desire to lead our industry in all facets of our business bring the "Woodhouse Difference" to each home we build.

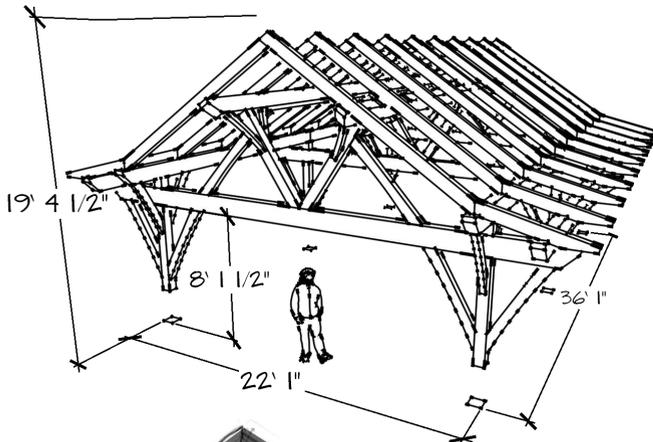

Many will say our difference is in our industry-leading 3D modeling technology, which creates beautiful renderings and unique point-of-view fly-through models of homes before they are even built. Others may point to the fact that we support our clients with the industry's only transferable lifetime warranty. Some may say that it is our ability to produce precision crafted timbers from a variety of species of wood that sets Woodhouse apart from other timber frame manufacturers.

We believe that all of the above is true, but what really drives the "Woodhouse Difference" is you, the people who turn dreams into dream homes. It takes a team to build these dreams, from our designers, regional project managers and office staff with nearly 300 combined years of experience. The most important member of our team is you. Join the hundreds of satisfied Woodhouse homeowners who let us listen to their dreams, and allow us to earn your trust. Please stop by and experience the "Woodhouse Difference" for yourself.

Most Artistic Design

GULLWING TIMBER PAVILION

22' x 36' Model

The Gullwing design is one that will stand out in your neighborhood with its uniqueness: mid-ridge purlins prop up an array of lap rafters, creating a sweeping roof that showcases two distinct pitches. This Pavilion is sure to make its mark as part of your dream backyard.

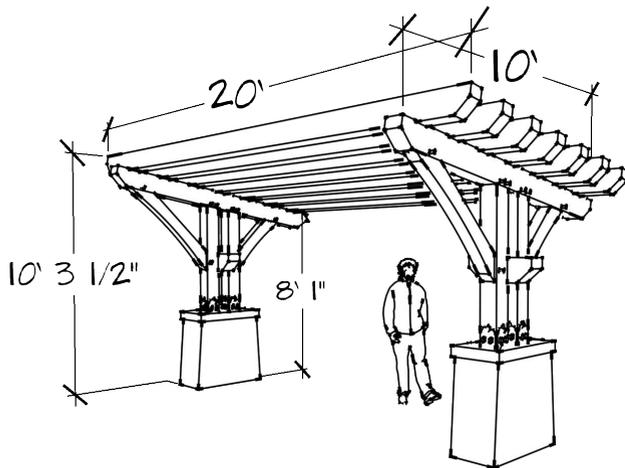

Additional standard sizes and custom sizes are also available.

Best Minimalist Design

TIMBER PERGOLA

20' x 10' Model

This minimalist design creates a sleek footprint, providing adequate space for a comfortable seating arrangement. This unique layout can coincide with another structure and become the perfect centerpiece. The wide cover provides relaxing shade during the hotter months.

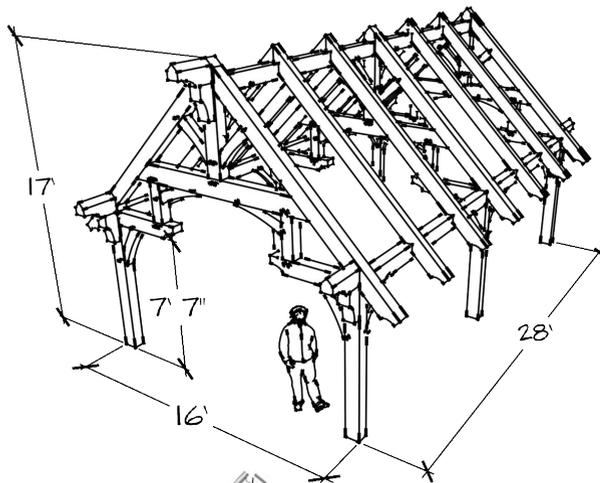

Additional standard sizes and custom sizes are also available.

Best Traditional Design

HAMMER BEAM TIMBER PAVILION

16' x 28' Model

This classic timber frame pavilion kit gives a warm rustic look to your outdoor space, featuring hammer beam trusses assembled using centuries-old mortise and tenon joinery. The large scale of this pavilion makes it great for entertaining large crowds. It provides the perfect atmosphere for small outdoor events or a group enjoying an outdoor fireplace.

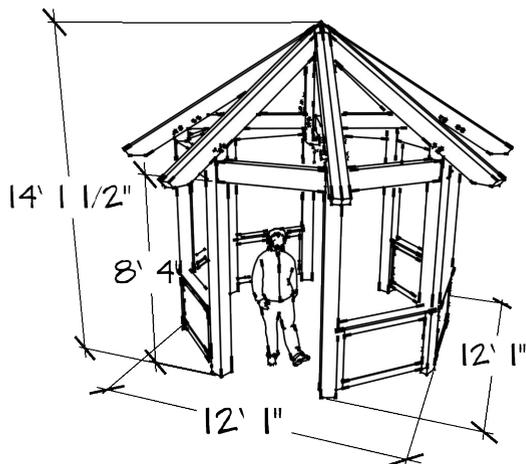

Additional standard sizes and custom sizes are also available.

Best Magical Garden Design

TIMBER GAZEBO

12' x 12' Model

The simple octagon shape of this gazebo offers balanced elegance, while providing the perfect place to relax and enjoy the outdoors in every season. This beautiful structure can add charm to a garden, or create the perfect romantic setting.

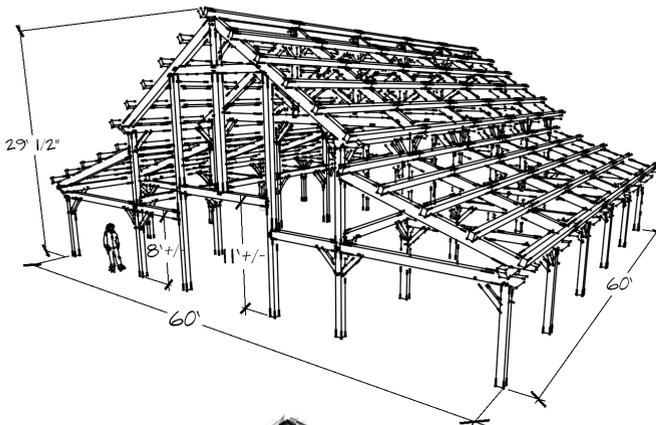

Additional standard sizes and custom sizes are also available.

Best Large Event Space Design

TIMBER PARK PAVILION

60' x 60' Model

Imagine the grandeur of a fully timbered pavilion in your neighborhood! With a 60'x60' footprint, this model opens the door for hosting a multitude of large-scale events: weddings, corporate picnics, private get-togethers are all possible in this large, open space.

The various shed and gable roofs that we've designed architecturally form a central thoroughfare and wings, which offer space planning opportunities that you wouldn't find in typical venues. Make your park stand out with this timber pavilion!

Additional sizes and custom configurations are also available.
